NEWS TO WU.

COMES FROM VICTORIA.

BY THE NEW ASSOCIATED PRESS—A.M. WASHINGTON, Aug. 28.—The inference to be drawn from a reference to Minister Wu Ting Fang in a Victoria dispatch, that his term in Washington has been extended for another three years, cannot be explained by the officials of the Chinese legation here.

The latest official information which the Minister has received, which is being telegraphed to Peking, indicates that his departure from Washington is not expected until April or May next.

The usual term of a Chinese Minister at one post is three years. By May 1 next, Minister Wu will have completed six years of office at Washington. However, it is stated here that after a three-year term, there is no limit is fixed for a further stay.

BERTI HOLDS AGUA DULCE.

SITUATION IS UNFAVORABLE.

BY THE NEW ASSOCIATED PRESS—A.M. WASHINGTON, Aug. 28.—Sen. Charles McNary, the Oregonian, has received a cablegram from Gen. Salazar, Governor of the State of Panama, declaring that Gen. Berti, with the Colombian government forces, is still in possession of the town of Aguadulce, and that the prospects are unfavorable for a maintenance of that situation.

Gen. Salazar says that the report of an imminent capitulation to the rebels is unfounded. He also declares that the rebels, who are besieging him are in a sore plight, because of the unobtainable condition of the territory which they now occupy.

DETAILED ACCOUNT.

BY THE NEW ASSOCIATED PRESS—A.M. WASHINGTON, Aug. 28.—The first detailed and official account of the situation in the Isthmus of Panama, as it stood August 18, is contained in the following report, just received from the Navy Department from Commander William F. Potter, of the United States battleship Ranger, which was at Panama.

"I have the honor to inform the department that no reliable information has been received in regard to the results of operations at Aguadulce. It is believed that the government forces are surrounded, and cannot hold out much longer. In consequence of the report that the revolutionaries have landed at San Carlos, about forty-five miles from here, and intended to advance on Panama, I went down the coast yesterday in company with the Consul-General on the Panama Railway Company's tender Bolivar, as far as that point, but saw nothing to indicate that such a landing had taken place.

"The authorities here very apprehensive of an attack on Panama, and have very few troops to defend the place, and have no means of bringing more from outside. The situation at Panama is in the same unsatisfactory condition."

CHESTER TO SUCCEED DAVIS.

CHIEF OF THE OBSERVATORY.

BY THE NEW ASSOCIATED PRESS—A.M. WASHINGTON, Aug. 28.—The Navy Department has announced that Capt. Colby M. Chester would succeed Capt. Charles H. Davis, as chief of the Naval Observatory, when the latter is placed in command of the battleship Alabama, as the successor of Commander Winthrop Sargent, who will succeed Commander Walcott as superintendent of the Naval Academy at Annapolis.

Commander Winthrop will be assigned to the command of the protected cruiser Newark, when she goes into commission, October 15.

PENSION DISBURSEMENTS.

FIGURES FROM THE AUDITOR.

BY THE NEW ASSOCIATED PRESS—A.M. WASHINGTON, Aug. 28.—The annual report of the Auditor of the Interior Department shows that the disbursements from the appropriations for army pensions for the year ending June 30, 1935, amounted to \$12,384,000. The total for the year ending June 30, 1936, is \$12,444,702.

GEN. MILES'S TRIP.

VISIT TO THE ARMY.

BY THE NEW ASSOCIATED PRESS—A.M. WASHINGTON, Aug. 28.—Gen. Miles, accompanied by Mrs. Miles and his aides, Col. Whitney and Major, will leave Washington for the Philippine Islands next Wednesday. Mrs. Miles may not go further than San Francisco, where the general, she may conclude to accompany him across the Pacific.

"I regard the trip as merely visit to the army there," Gen. Miles said. "I shall make a point to visit practically every part of the Philippine Islands, although as I have said this matter has not yet been determined upon. The visit will consume from thirty to sixty days."

The transport Thomas, on which the general and his party will sail, has recently been overhauled and fitted up, making her one of the most elegant and comfortable of the army transports.

AID FOR NAVAJOES.

ASKED BY SENATOR RAWLINS.

BY THE NEW ASSOCIATED PRESS—A.M. WASHINGTON, Aug. 28.—Commissioner of Indian Affairs Jones today received a telegram from Senator Rawlins of Utah, representing that 60,000 Indians on the Navajo reservation in the southern part of his State, are starving, and requesting that assistance be dispatched to them.

ST. JOSEPH (Mo.) Aug. 28.—In the beef trust investigation this morning no material disclosures were made. J. F. Butler, a local butcher, testified for the prosecution. His evidence was to the effect that he had, on a few occasions, been given rebates by local packers, and that he had been warned not to tell any other packers. Atty.-Gen. Crow is following the line of evidence in hope of establishing his contention that a combine existed prior to May 5. The inquiry will adjourn this afternoon until some time next week.

cerning the validity of the service of the subpoena on Peter Power, or Power absenting himself, or that I paid Lamb any money on the Northern Pacific suit, to enable Mr. Power to absent himself, or that I gave my opinion as to the legality of the subpoena served on, or advised him to do any one of these things, I might be liable to a fine of \$1,000, or imprisonment, or both, at the discretion of the court. On the contrary, whenever reference was made by the subject to the subject, I always said Power should be present in court. Kellogg of counsel for the Northern Securities Company, asked: "Chancellor, your statement contained no reference to the meetings he had with Lamb at the Waldorf-Astoria, the Calumet Club and the Transportation Club. Mr. Chancellor said he had forgotten these meetings."

"Where was that paper prepared?" Kellogg asked.

"Part in my room, and part in the office of Bourke Cockran."

YERKES'S LONDON RAILWAYS.

WORK TO BE RAPIDLY RUSHED.

BY THE NEW ASSOCIATED PRESS—A.M. NEW YORK, Aug. 28.—Charles T. Yerkes, who has returned from London, after an absence of nearly eight months, said, regarding the transportation lines now being constructed in London by American capitalists:

"In eighteen months we expect to have our lines running. Last year we did not get very far advanced, but we have now made considerable progress. We have already had passed through Parliament. These four lines, together with the Metropolitan District Railway, make a total of five lines. The scheme of London comprise our system."

"When completed, our lines will go in an oval under the heart of the city of London, and these different lines will connect with this oval. This makes through lines from the mouth of the Thames at the sea with the town of Richmond, sixty miles away. The lines will be sixty miles long, with a total of double track to connect with other lines forty miles in length, all electrically equipped, and the majority of the lines will be run through subways practically the same as the new way under construction in New York."

HOW THE TIMES TREATS LABOR.

THE LOS ANGELES TIMES regularly pays to its skilled, reliable and acceptable workmen wages that average from \$7.75 to \$4.50 per day for time work, and from \$4 to \$5.50 per day for piece work. These rates are higher than are paid by any competing newspaper; and another advance has recently been agreed upon. The Times pays larger sums weekly, monthly and yearly than any other newspaper in the Southwest. Its cash disbursements on this account between August, 1902, and the end of September, 1903, aggregated \$1,000,000. Its annual expenditures for labor of all classes, both skilled and unskilled, now average more than \$1,000,000 per year. There never has been any attempt, in any quarter, to deny these specific and telling facts, and the proprietors challenge such denial if made. Not for years has the Times had any trouble with its workmen, who are independent of unions, loyal to their employers and themselves, well satisfied and prosperous. The Times controls its own business in its own way, subject only to the laws of the land; and no interference with that control can be lawfully or justly made. The result of its stand policy has proven highly beneficial to all concerned, and the justness and correctness of its course have for years past received public approval in most marked and conspicuous ways, the circulation and advertising patronage of the paper steadily and largely outstripping that of all local rivals.

THE TIMES-MIRROR COMPANY.

H. G. OTIS, President and General Manager.
Since no attempt whatever has been made in any quarter to refute, or even dispute, the accuracy of the foregoing authoritative statements, our devoted maligners are enticed; and the public is amply warranted in giving no credence to contemporary hostile assaults upon the Times management in the matter of its relations to its workmen, or vice versa. Falseness must yield to truth.

BUSINESS.

The results exchanged at the Los Angeles Chamber of Commerce yesterday amounted to \$1,000,000, as compared with \$750,000 for the same day last year. These figures indicate fine business activity for summer.

The treasury in the Chicago grain pit was searched yesterday, and oats closed lowest of all. Animations was lacking in New York dealings, and Illinois receded from yesterday's show of strength.

QUEER VICTORY.

As the Times predicted would be the case, the local newspaper defender of Gov. Gage—which had hoped to become the Gage organ in case of his reelection—came out yesterday with the intimation that the result at Sacramento was, in one sense, a victory for Gage, because he, holding the key to the situation, threw his strength to Dr. Pardee, and so made the nomination of the Alameda man possible.

If the Gageites are willing to amuse themselves by cherishing such a silly delusion, so long as we have the substance, but they must not be surprised if, in so doing, they excite some ironical laughter on the part of those who won the victory.

The result of the balloting at Sacramento was a complete defeat for Gage. His followers had been loudly proclaiming that he would be nominated on the first ballot. Instead of that, he was ignominiously routed, "horse, foot and dragon."

(And, by the way, doesn't that ancient saw, which is still doing duty in the newspapers, express a curious and anomalous sort of things military? What are the dragons if they are not "horse?" Or perhaps, in politics, the term means the horse manes? or maybe "a horse on" (the other fellow?) Returning to our author, however: Of course Gage's votes served to help elect Pardee, but they were of no use to Gage himself, as he could not be nominated, and they had to go somewhere. In directing them to Pardee, he merely fulfilled an obligation incurred four years ago—and shunned Flint as the postscript.

The Times has no desire to gloat unwarrantably over a defeated enemy; but in the interest of truth, and as a contribution to current history, let it be recorded that the Republican party of California absolutely refused to give Gov. Gage the coveted "vindication" in the shape of a renomination for office.

SELF-DEBASING EDITORS.

By all odds the most unreasonable and absurd feature of the campaign for the renomination of Gov. Gage was the attempt of his followers and defenders to make the public believe that a conspiracy had been formed to defeat him by three leading Republican newspapers of California, to wit, the Call and the Chronicle of San Francisco, and the Times of Los Angeles.

There was absolutely not the slightest ground for such a charge, apart from the fact that these three papers, in common with a large number of other independent Republican papers in the State, sought to save the Republican party of California from defeat and the State from disgrace. In doing this they were evidently and simply doing their duty as guardians of the public interest. Yet they were loudly and persistently abused by the Gage hirelings, as "conspirators," "persecutors," "dictators," and so forth, until some people, who do not look far beneath the surface, really came to begin to believe that

The moment the Los Angeles county delegation to the Republican State convention was divided in the choice made at the primary, that moment Gage's defeat was assured. Men are not getting nominated much for office these days who cannot carry the county they live in when permanently located. The gang ought to have known that much, and probably did but it couldn't stop hollering, having become wound up.

It is almost heartbreaking to note how sober and serious the Democrats are in California, compared with the gay and chipper air they had but two short days ago. Joy has been "dew the coop," and grief is in the saddle with the spurs sticking into the Democratic jacks about a red. It is certainly a propitious time to be sorry for those cast down in spirit and mashed deep into the Gulf of Despair.

Judge Fritz ought to refrain from going on his vacation until all the furniture figures are in from San Quentin. The people of the State want the true inwardness of that San Quentin business and the whole thereof. Hold fast, Judge, the testimony is getting to be interesting. Do not make it a serial story. It should be complete in one number.

The steel trust makes figures to show that the assets of that concern are worth \$1,000,000 more than the sum of the combined common and preferred stock thereof. This goes to show that business is quite a country for hardware, and those figures make a billion-dollar Congress look like about 30 cents.

To Statesman Hardupson, greeting—Sir: Suffer this printer to penetrate your dense intellect: He who indulges in echinacina in the ultimate resort cachinates with greater satisfaction to himself than does he who merely cachinates in the genesis of things. See?

An earthquake has come along and helped kill off some of those Moros. Their viciousness is being broken down by Uncle Sam, who is trying to make those Moros behave themselves, because the Boston Philistine cannot roar at an earthquake.

All Europe has its eyes fixed on our strenuous young President, and its ears are against the ground listening for what he has to say on public questions. And there is always something good to hear when Mr. Roosevelt says things.

All the Republicans in California are for Pardee, hence his election is just about as sure as shooting. The Democracy has been hard hit by Gage's defeat, and the untried are frank enough to acknowledge the corn.

A rattled and retreating conspiracy of the "push" breed talks about "victory at the polls" next November. Does Hardupson the Elder—Walrus of Hardupson—contemplate emigrating to the Far North?

Besides a baseball pennant that must be won from Oakland there is also a republican banner that Los Angeles wants from the country, and the modern Athens is located. Let's go after everything in sight.

An American by the name of Smith has gotten himself into a big bunch of trouble by accusing an European of being drunk. But was he? That's the question. If the gentleman was full we are with Smith.

Atty-Gen. Knox has gone abroad to secure a certificate of title to that Panama Canal property. Here's hoping that France will be able to deliver the goods that the delivery man commences p. 4.

According to the Kansas City Journal, the Cubans do not love us any more. Same old thing that happens to the man who interferes between husband and wife. But we'd do it again, just the same.

The Milwaukee Sentinel has printed a rooster back of a big railroad strike. The chances are that the Sentinel has been scared by a rustling in the brush and has shot off its gun too quick.

A Wisconsin man has had his reason restored to him by being shot in a not vital part. Many a man has gone crazy by being only half shot. A little shooting is a dangerous thing.

But for the Flint stalwarts Dr. Pardee would never have been the nominee for Governor, and the next Governor of California is a man of sufficient acuteness to appreciate that fact.

We will probably be able to get a board of Supervisors this fall that will permit that monument to Stephen M. White to be located where it belongs. Voters should see to this.

When a political boss slips his trolley the people ride to the right station by force of gravity. For further particulars see what happened at Sacramento last Wednesday.

There is no complaint among the respectable Republicans of the State regarding the outcome of the work at Sacramento; everybody satisfied.

There were some badly damaged slates at Sacramento besides the one on which the candidates for Governor had their names set down.

EVENTS IN SOCIETY.

An interesting romance and two journeys formed the prelude to a quiet wedding that took place in Los Angeles.

When Miss Gussie Jesse of Chicago and Melvin J. More of No. 218 East Third street were united in marriage by Rev. George A. House at his residence, No. 948 Sunbury avenue, Mr. More journeyed East nearly two years ago and during his visit met the young woman who since promised and became his bride.

But it is a far cry to the City on-the-Lake, and business matters are insistent, and finally the young woman was persuaded to cross the mountains and the desert to meet the impatient lover and arrived yesterday morning.

And that afternoon, at 3 o'clock, looking charming and fresh in her pretty traveling costume, she arrived at the home of her bridegroom, where she was met by Mr. and Mrs. More who held her promise. Mr. and Mrs. More will reside at No. 318 East Third street.

PROHIBS MIX NEW ISSUES.

Remarkable Platform of State Party.

Socialism Flavors the Old Ideas.

Ticket Made, Warm Resolutions Passed and Committees Selected.

The State Convention of the Prohibition party of California, in session at the Temperance Temple, yesterday nominated an almost complete ticket, adopted an extraordinary platform, selected a State Central Committee, raised funds to carry on the campaign, passed several hot-stuff resolutions, and adjourned sine die.

All this was accomplished in one day by about one hundred men and women reformers who worked with the speed that comes of enthusiasm and perfect harmony. There was not one single contest or unusual incident in either the county or State Prohibition convention.

The most noteworthy feature of the State convention is the platform adopted, which, for its size, could scarcely be a more remarkable political document. The principles subscribed to include prohibition of the liquor traffic, woman's suffrage, direct legislation, public ownership and taxation reform. The platform is as follows:

"First—The Prohibition party of the State of California, in convention assembled, holding the liquor traffic to be a public nuisance, and a source of crime, demands the total prohibition of that traffic.

"Second—We believe that intelligence rather than sex should determine the right of suffrage.

"Third—We favor the adoption of the initiative and referendum, so that, in fact as well as in theory, the people may govern themselves.

"Fourth—We favor the public ownership of public utilities.

"Fifth—We favor the election of the President, Vice-President and United States Senators by a direct vote of the people.

"Sixth—We favor such enforcement of the laws governing taxation as will compel all individuals and corporations to pay their full share of the expenses of the government.

"Seventh—We favor the election of the State ticket by a direct vote of the people.

"Eighth—We favor the election of the State ticket by a direct vote of the people.

"Ninth—We favor the election of the State ticket by a direct vote of the people.

"Tenth—We favor the election of the State ticket by a direct vote of the people.

"Eleventh—We favor the election of the State ticket by a direct vote of the people.

"Twelfth—We favor the election of the State ticket by a direct vote of the people.

"Thirteenth—We favor the election of the State ticket by a direct vote of the people.

"Fourteenth—We favor the election of the State ticket by a direct vote of the people.

"Fifteenth—We favor the election of the State ticket by a direct vote of the people.

"Sixteenth—We favor the election of the State ticket by a direct vote of the people.

"Seventeenth—We favor the election of the State ticket by a direct vote of the people.

"Eighteenth—We favor the election of the State ticket by a direct vote of the people.

"Nineteenth—We favor the election of the State ticket by a direct vote of the people.

"Twentieth—We favor the election of the State ticket by a direct vote of the people.

"Twenty-fifth—We favor the election of the State ticket by a direct vote of the people.

"Twenty-sixth—We favor the election of the State ticket by a direct vote of the people.

"Twenty-seventh—We favor the election of the State ticket by a direct vote of the people.

"Twenty-eighth—We favor the election of the State ticket by a direct vote of the people.

"Twenty-ninth—We favor the election of the State ticket by a direct vote of the people.

"Thirtieth—We favor the election of the State ticket by a direct vote of the people.

SCRIP BOOKS FOR TICKETS.

Interchangeable Mileage in West.

Important Change Due October First.

Over Forty Companies in the Plan for Convenience of Public.

Interchangeable mileage tickets are to be issued by the various railroads of the West on October 1, and the present plan of mileage tickets is to be done away with at least by the Southern Pacific and the Santa Fe.

Both are the instructions that have been reached local railroad headquarters.

The new plan, it is reported, was brought to be introduced in the East, and certain commanding railroads were secured, and then the West was introduced. Under the new system the mileage of the traveler can be purchased in scrip coupons which can be changed for regular railway tickets at any of the railroads that are parties to the arrangement.

Here are some items from the Cloak and Suit Department which we want to dispose of before Saturday noon.

Suits and Shirt Waists

There are four special suits and three lots of shirt waists, and we have never offered a better opportunity for our customers to save money. Read the details.

\$20.00 Suit \$10.00
Grey cheviot cloth suit with Eton jacket silk lined. Reduced from \$20 to \$10.

\$25.00 Suit \$14.75
Navy blue cheviot serge suit piped with silk braid. Eton jacket silk lined with velvet collar. Reduced from \$25.00 to \$14.75.

\$22.50 Suit \$12.50
Black serge suit with fly front jacket taffeta silk lined. Reduced from \$22.50 to \$12.50.

\$30.00 Suit \$17.50
Red Venetian cloth suit trimmed with stitched bands of taffeta silk and satin. Eton jacket silk lined. Reduced from \$30.00 to \$17.50.

3 Shirt Waist Specials

These shirt waists are to be sold in three lots—one at 50c, one at 75c, and one at \$1.00—and you are pretty certain to find such a waist as suits you somewhere in the collection. If you do you will save a half or two-thirds the regular price, for these broken lots must be closed out quickly.

50c
At 50c we offer you white lawn shirt waists, trimmed with lace and insertion; also fancy percale shirt waists in black and white, red and white and blue and white stripes. Have sold at \$1.00 to \$1.75. Choose at 50c.

75c
The 75c lot consists of white lawn shirt waists, tucked front and back and trimmed with two rows of embroidery. They were one of our most popular lines at \$1.75, and the new price is less than half actual value. Now 75c.

\$1.00
The assortment at a dollar is much wider, including blue lawn shirt waists, fancy striped percale waists and plain cambric which have retailed regularly at \$2.00. Sale price \$1.00.

OUR STORE WILL CLOSE AT ONE O'CLOCK ON SATURDAY AND WILL REMAIN CLOSED UNTIL TUESDAY MORNING.

Sensational Suit Selling.

\$16.50 for brand new suits worth \$25.00.

Such an offering as this would be startling at the fore end of the season, so now, before the season has really begun, it seems almost unbelievable.

35 or 40 new styles in \$22.50 to \$30.00 tailor made suits came to us by Wednesday's New York express at a price that lets us sell them at \$16.50 all made of medium weight woollens—cheviots, tans, grays, fancy mixtures and black. All the jackets are silk-lined, and some of the suits silk lined throughout. Not one of them worth less than \$22.50, and many of them would be decidedly cheap at \$30.00. \$25.00 hardly covers the average valuation. Sizes 32, 34, 36 and 38 only, and very few of the latter. It will pay you to get around early this morning.

sisters," whose property the Premier has placed his power as forbids to appeal to the courts. Private establishments will remain closed until in the morning the latest decision of appeal is heard. Associations which threaten to appeal to the courts are threatened with dissolution by a deputation of those who believe that law has ceased to exist before it has been taken away by law.

THE AGITATION INCREASES.

Meanwhile the country is in an uproar. The peasants love their religious instructors and vow vengeance on those who lay a hand on them. The non-partisan citizen, who has cared little for the dispute, is turning round at last and listening to those who declare that a large section of the people would prefer imperialism or royalty to the present government. They at least recognize the fact that the mood of the provinces is getting more surly and defiant, and are not inclined to laugh at those who prophesy mighty changes in France at no distant future.

GREAT TRANSMISSION LINE.

Electric Wire from Kernville to Carry Voltage Equal to Ten Thousand Horse Power to Los Angeles.

Preliminary surveys have been finished by the Kern River Power Company, and the contracts will soon be let for the construction of the transmission line between this place and Kernville, where the headworks are situated. The power works are about twelve miles farther down Kern River from the latter place.

Power was necessary for the great undertaking have already been purchased, lumber for the fumes has been properly distributed along the route, roads have been reconstructed, and it may be said that everything is in readiness for the final touches.

Rough work was done by Mr. Charles Forman and associates several years ago, and the course of the transmission line well established. At that time, however, they were doing everything technically accurate in the letting of contracts, hence the new survey, laid the engineers engaged upon that duty have just returned from the field of operations and pronounce their work absolutely correct in every detail.

It is estimated that the transmission line will be from one hundred and ten to one hundred and twenty-five miles in length, and will have a voltage equal to 10,000 horse power. The Pacific Light and Power Company of this city, whose head offices are at No. 254 South Broadway street, has been charged to take all the current the plant is capable of generating.

Canals will convey the waters of Kern River from the Kernville station to the cliffs overlooking the river, where a drop of 400 feet has been secured. At that time, but now reconstructed, it has been found necessary to rebuild fumes, make tunnels and construct bridges, and at one point there is a splendid iron bridge across Kern River, over which the water is conveyed in fumes.

When this immense system in practical operation, it will greatly enhance the electric facilities of the Pacific coast. The Pioneer Engineer as it is claimed they will be able to pump five inches for every inch developed in Kern Cañon.

Before placing yourself under the care of this or that doctor, you will be doing the wise thing if you come to me and listen to what I will say in reference to your case.

This doctor or that doctor may have graduated from the best medical college in the world and may rate very high as a general practitioner, but do you think he can give intelligent treatment in men's diseases, which are a life study in themselves?

These general practitioners have a limited knowledge of such diseases, and usually their experience is like their knowledge—limited.

The longer you ponder over this matter the more clearly you will see that it is the specialist who has made absolute cures in thousands and thousands of cases of Men's Diseases that would be the safest, cheapest and best doctor for you to treat with.

Thousands of cures to my credit should influence you to come to me.

Weakness.

causes many men to think that life is not worth living. If you feel that you are gradually growing weaker by day, you owe it to yourself to consult me. My pleasant method of treatment renews strength and creates a desire for longevity. Weakness is caused usually by overwork, gonorrhea, enlarged, inflamed prostate, results of abuse and excesses, and often from badly-treated disorders. When I restore a patient to his full manly vigor the restoration is permanent.

Varicocele.

Medical statistics show that four out of every ten men have varicocele. This vitality-sapping derangement produces a bunch of large knotted and twisted veins on the left side and causes a constant weakness and a painful dragging-down feeling. The unaffected side will gradually grow more and more sympathetic, and at last vitally becomes completely lost. I have indisputable proof of hundreds of successful operations that have performed right here in Los Angeles. I guarantee a perfect cure in 7 to 17 days. My treatment for varicocele is original and scientific. Use no knife, ligature, caustic or electricity.

Stricture.

I cure stricture without using a knife. My treatment dissolves the stricture and completely cleanses the urinary passage, leaving the bladder and kidneys free from irritation or infection.

Intantigous Blood Diseases.

Whether hereditary or contracted, medically cured in a very short time without the use of poisonous material drugs.

THE CITY IN BRIEF.

NEWS AND BUSINESS.

Red Men Smoke.

Los Angeles, Stamm, No. 252, U.O. E. M., initiated a class of candidates on Wednesday night at the Odd Fellows' Hall on South Main street, and this was followed by a smoker and general high jinks. This lodge of Red Men is composed entirely of Germans.

M. E. Men's Meeting.

Rev. George A. Hough will address the men's meeting at the First M. E. Church, this evening at 7:30 o'clock. This will be Mr. Hough's last address to the men before severing his connection with the First Church, which will have no assistant pastor next year.

Dr. Frost's Last Lecture.

Charles Harold, a wandering drunk, fell into a basement near First and Los Angeles street yesterday evening, and was picked up in a knocked-out condition. One of his ankles was severely sprained, and he was otherwise bruised. He was treated at the Receiving Hospital.

The Grand Canyon of the Colorado.

"The Grand Canyon of the Colorado" will be the subject of a free lecture by Rev. Dr. A. J. Frost, this evening at the First Baptist Church, No. 739 South Flower street. This will be Dr. Frost's last lecture in Los Angeles, as he will go to Minneapolis to take charge of a Bible Institute.

Marr Directories.

Through the courtesy of the City Directory Company, the Chamber of Commerce has been able to obtain more directories of cities of the United States, which have been added to those already on public file in the chamber. These directories have proved a great accommodation to the public, and are consulted by a large number of persons daily.

Capt. Gelich Dead.

Capt. Ralfo Gelich, a commandant in the Austrian Lloyd Steamship Company, and brother of the late Dr. Vincent Gelich of this city, died in Trieste, Austria, last night. He was the youngest brother of Dr. Gelich, who was one of the early practicing physicians of Los Angeles, having come here in 1862. Mrs. Gelich resides in Boyle Heights.

Baptist Convention.

The annual Baptist Convention of Southern California will be held at Ontario, commencing Saturday, September 2, and continuing through Sunday, September 3. Rev. Joseph Smale of the First Church of this city has been elected moderator of the convention. The convention will be held at the Ontario Hotel, which is a large and comfortable place.

Y.M.C.A. Enterprises.

Announcing the opening of classes for spiritual, mental and physical development, September 2, the local Y.M.C.A. has issued an elegant series of advertising cards, which are being distributed by any branch association in the country. The cards bear the names of the various departments of sport and study. From indications the work accomplished at the coming winter season will far exceed all previous records.

Thumb and Finger.

W. E. Parker, who lives at No. 1409 East Eighth street, was operating a machine at the Partridge & Alford Iron Works and the thumb of his left hand was caught between the cog of two wheels. The injured member was crushed. While operating a gas engine in the oil fields, F. A. Carr, who lives at No. 389 Yale street, became careless and one of the fingers of his right hand was caught in the cog of a machine. Carr's thumb and Carr's finger were amputated at the Receiving Hospital.

Main-street Burglars.

Four burglars of business houses on South Main street were reported to the police yesterday. Wednesday night or early yesterday was the time, and it looks as if one man or set of men working together was responsible. From E. M. Poston's saloon, at No. 418, \$25 was taken. Entrance was made by breaking a glass in the side window. The saloon of Geyer & Bernhart, No. 428, was entered by a rear window and two bottles of whisky taken. The second-hand furniture store of Charles Starnow, No. 454, was entered by a rear window and several cans of paint taken. E. M. Shenda, who has a barber shop at No. 2334, reports that a burglar entered the back door of his shop and stole a razor.

BREVIETTES.

The great auction sale of chairs at the large tent, Seventh and Main streets, will be continued this afternoon at 2 p.m. and Saturday at same hour. Persons desiring anything in the chair line can save money by attending this sale.

THE PUBLIC SERVICE.

SUMMARY OF THE DAY.

A special session of the Police Commission was held yesterday and charges against two officers heard. Desk Clerk Tyler was reprimanded for using profane language and Officer Dixon was censured.

The Seventh Ward Improvement Association petitioned the Council to have obstructions removed from the streets.

Gov. Gage's habeas corpus case was practically laid on the shelf to gather dust in the Superior Court yesterday.

The new Edison Electric Company combination appeared in articles of incorporation filed yesterday.

After a sensational hearing in the Police Court, Little Ben Lockridge and Alvin Guesner were held for the larceny of a horse and buggy.

AT THE CITY HALL.

OFFICER ON CARPET

"CAUSE ME 'CUSED."

MAYOR ADVISES AGAINST USING SWEAK WORDS.

Desk Clerk Tyler, Reprimanded and Police Officer Dixon Censured—Police Commission Holds Special Session to Hear Charges of Reports.

Charges preferred by reporters of the Express and Record against Police Officer Charles Dixon and Desk Clerk John W. Tyler were heard by the Police Commission in special session yesterday.

The officers were accused of using profanity and of withholding news that should have been given out. At the hearing, the Mayor testified, denying the allegations. W. E. King of the Express and P. T. Seagrave of the Record, both of whom filed affidavits, testified in support of their cause as did several other reporters.

After a brief executive session the commission censured Officer Dixon and ordered that the Mayor should publicly reprimand Desk Clerk Tyler.

The report said: "No proof has been presented that Officer Dixon used language unbecoming an officer and a gentleman and that this commission is hereby instructed to reprimand Clerk Tyler therefor."

The evidence shows that Desk Clerk Tyler did use language unbecoming an officer and a gentleman and that this commission is hereby instructed to reprimand Clerk Tyler therefor.

Mayor Snyder then delivered one of his celebrated homilies, in which he brought the tears from those in the commission room. He told Tyler that his transgression was, fortunately, not great. He said "to err is human," but did not add "to forgive is divine."

"This board, however, is very seriously opposed to the use of profanity by the police," continued the Mayor. "It is not gentlemanly; it is not courteous, and it must stop. You assert that there was provocation, and I agree; that you had been criticized for something with which you had nothing to do. All of us who are public officers must expect to be criticized as long as we remain such. We are serving the people and we must do our duty willingly, gladly and in a gentlemanly manner. Profanity serves no good purpose. It is wrong, radically wrong. Let this be a lesson to the whole force and to the citizens as well. Too many complaints of this kind have been made. Let there be no more profanity in the municipal department. If it was decided by the board to consider the question of giving out news at the next regular session. Commissioner Keener stated that he had no objection to this source, and that some general regulation should be made by the board."

There is a rule of the department which states that no one but the Chief shall give out news about the affairs of the police department. This rule was cited by the accused officers as the reason why the reporters on the evening papers were unable to obtain the particulars which they sought.

Care on Sixth Street.

A vigorous protest has been registered with the Council by the Seventh Ward Improvement Association against a number of proceedings that concern that building. Secretary R. P. Hopkins, who filed the protest, stated that the cars left by the Los Angeles Railway Company on Sixth street between Central avenue and Alameda, but a positive menace to life and limb. He states that cars are left on the track all night, without any warning lights, and that the many people who pass that way are seriously discomfited.

The Council is asked to have the Los Angeles Railway Company move a portion of one of its buildings from Sixth street near Mateo.

If the Southern California Railway Company can be induced to place an electric alarm at the intersection of Palmetto and Mateo streets the Seventh Ward Association will feel grateful to the Council. There are four tracks that converge at this point, it is stated, and the place is a veritable death trap.

PICTURESQUE ORIENTALS.

Picturesque and novel are the Bedouin Arabs, of the Riffian tribe, from the Sultan's army, who constitute part of the "Congress of Rough Riders" with Buffalo Bill's Wild West. As Bedouins, of course, they are at home on the backs of their swift and handsome Arab steeds, and there is where one sees them in their most striking form, going like the wind, with white burnous flying and guns and scimitars whirling like whirling dervishes. As acrobats and athletes, their skill and prowess are amazing.

Charged With Larceny of Watch.

James B. Eaton was arraigned in the Police Court yesterday for the larceny of a gold watch. The complaint was sworn to by C. H. Street, who says he left the watch in a toilet at a rooming-house on Spring street, where it was found by Eaton. The latter denied any knowledge of the watch, but Street found the man to whom it was sold Eaton gave the watch. The case will be heard today.

REV. EDWARD EVERETT HALE, D.D., has written for The Times Magazine the concluding article about the world travel that is about to consider the California "pious fund" case.

SOME interesting stories of the stars, told by the Indians of Southern California, will be related to the readers of The Times Magazine in the coming Sunday, by J. H. Forbes.

ONE of the interesting articles in The Times Magazine the coming Sunday will be an account written by a pilgrim to Mecca, of what he witnessed at the shrine of Allah.

GAGE'S HABEAS CORPUS

LAIN ON THE SHELF.

POSTPONED INDEFINITELY AT HIS OWN REQUEST.

Italian Barber Who Hit His Wife's Leg With a Hammer, but She Turns Him Down Considerable Money's Worth.

Gov. Gage's great struggle for liberty was respectfully laid on the shelf in the Courtroom yesterday.

Since the State Capitol at the Holmbeck Hotel closed down, the Governor's arrest followed "interference with the affairs of State." He no longer protests that the Governor is immune from arrest. At this melancholy stage of the game he would just as soon be under arrest as any other old place.

His habeas corpus proceedings, by which he was going to struggle free, were postponed indefinitely by Judge Conroy yesterday at the Governor's request. The petition was to have been heard today.

The Governor's attorney, H. H. Appel, went into court yesterday morning with Deputy District Attorney Willis. They and several statistes were present. Governor Gage had agreed with Walter Bacon, Esq., who represents Sprick, that the hearing of the petition "be continued to be taken up by consent."

BIT HER LEG.

Michelle Pantous, an Italian barber, tried to make \$60 worth of love to his judgment wife between Judge Conroy's courtroom and the Courtroom yesterday morning. He was not successful, although he fairly steamed with ardor. The consequence is he will have to pay the money.

The first of the Italian's troubles was due to the fact that he hit his wife's leg; the rest of them are due to grave errors in his attempts to patch up the breach.

The wife's dignity was deeply offended by being bitten on the leg, and she left Pantous. He runs a one-chair barber shop at 12th and Broadway, and disconcerted when she left him alone and forlorn and went to her sister's home at 12th and Broadway.

Pantous closed up the shop a week ago and went out to win her back. He made a fatal mistake in the way he did it. He was a humble enough. He took all the cash he could rake together, which happened to be \$44, and took it in front of her, but she refused to be dazzled.

She decided, however, that if he had that much money he ought to be able to get a divorce. Wherefore Pantous was dragged into court on a citation.

He protested to the court that he is very poor and couldn't possibly pay the money. He made a formal offer, however, to the court, to pay her \$44, and to the sheriff as well. Too many complaints of this kind have been made. Let there be no more profanity in the municipal department. If it was decided by the board to consider the question of giving out news at the next regular session. Commissioner Keener stated that he had no objection to this source, and that some general regulation should be made by the board."

HOT LEGAL BATTLE FOR JUVENILE PRISONERS.

Interest Excited Concerning the Establishing of Juvenile Courts—An Old Book Steals Petticoats—Butcher Who Knocked Down Two Women.

The agitation which has been quietly going on with reference to the desirability of establishing juvenile courts in this State was, in a manner, responsible for something of a stir in Justice Austin's court yesterday, during which the boys cried, their mothers cried, and there was a general sensation.

The two small boys, Alexander Guesner and Ben Lockridge, were on hearing for the larceny of a horse and buggy, the property of Edward Thorne. It will be recalled that the two boys, on Sunday, the 17th inst., took the horse from in front of a church, and were found driving it on the street on the following Monday night.

Yesterday the case had progressed so far as the placing of Detective Kelly on the stand, to introduce certain admissions the boys are said to have made to the officers, while they were confined in the City Jail.

At this point there was an upheaval. Attorney Appel, representing Lockridge, jumped to his feet and asked an objection, declaring that the whole proceeding was illegal, in a lengthy argument he cited the law, which declares that children under 18 years of age shall not be confined in a prison in common with adult criminals, and that they shall not be induced to make any statements to officers except in the presence of their parents or legal guardian.

Davis supported these arguments in the face of Guesner, and the parents of the two boys were put on the stand to show that Lockridge was under 12 years and Guesner under 12.

James Smith, a butcher for the Cudahy company, was arrested by a sign from the red-light district and charged with battery. He plead not guilty and demanded a trial, but yesterday he revised his opinion, pled guilty and was fined \$10.

The officer testified that Smith visited the woman's house and ordered her to get up and about to get her back to the woman in the face-knocking her down, and meeting a Dutch girl in the door, he also knocked her down and then tried to escape.

Bohn's Soaked Petticoats.

Tom Bohn was dry. In order to wash himself he stole two petticoats from a woman and put them in soak.

It worked like a charm, and Tom attained to a glorious wetness, but came to grief when the tide was running full. Justice Austin yesterday gave him fifteen days on the chain gang, which he may be destined to find the driest job he ever struck.

MINES AND MINING.

MORE TRANSFERS OF ARIZONA MINERAL.

COPPER BUTTE CLAIMS BEING A FANCY FIGURE.

Another Deal in Gold Road Reported. King of Arizona's Big Shipments—Quartzite Belt—Millions Being Put in Mexican Mines.

The influx of outside capital seeking investment in Arizona mining properties continues, and from many camps comes word of new and important deals that are now pending.

From Phoenix is reported one of the biggest deals made in Southern Arizona in some time. The property involved is the Copper Butte claims, among the most promising in that part of the Territory.

The property was sold by J. R. Aitch and Quartzite Belt to the Edley Gold, Silver and Copper Mining Company, and the price paid, in some instances, is the highest price ever paid for a mining property in Maricopa county.

There is also a rumor of another transaction in the shares of the Copper Butte syndicate of this city. By the latest deal, said to be entirely independent of the recent transfer, whereby the property of the Gold Road Company was supplied with \$200,000 from a French syndicate, W. S. McCormick, a French syndicate for a large block of stock situated near Kingman. The property, situated near Kingman, is one of the best known in Arizona.

Quartzite Belt a Corner.

From a well-known mining man just in from the Territory, it is learned that the King of Arizona is about to become the leading mineral belt of Yuma county, Arizona.

Capital from all over the country is being invested there, and Los Angeles is well represented in the list of lucky owners of claims. It is the only portion of the southwestern part of the Territory, where a group of mines exists. Within a radius of twenty miles from the town of Quartzite, extending in all directions, every one of which bears excellent prospects.

Five or six different claims in the vicinity of Quartzite are being worked, all of them being a copper, gold and silver proposition, and especially rich in the former mineral. There has already been sufficient development to demonstrate the stability of the district.

It lies about the miles northeast of Yuma and while they have no mill there at present, considerable machinery of all kinds, principally for hoisting purposes and engines, is being shipped in, and it is only a question of time
